## 3. JK 2019: Feedback and Comments

The following comments were shared:

- Problems with the production of results have been discussed widely since the event
- It was noted how many TVOC members embraced the idea of helping over all four days of this regional event (rather than just selected days)
- The individual day Organisers were all very good. However, the overall coordination of volunteers across the whole event could be improved next time
- The ideas of entries being held open for longer than normal was welcomed
- The event did feel expensive to enter. Disappointment was expressed that there were no entry discounts for helpers. This was felt to be a poor way to treat volunteers, and counter to the current TVOC policy
- Other than the results problems, everything else to do with the event was perceived to be excellent

Neville Baker formally expressed how grateful he was for all the support given to the event by TVOC members.

The significant involvement of both Colin Duckworth (Sprint) and Roger Thetford (the longer courses on Day 3) as Planners of excellent courses was acknowledged.

#### 4. Timing Systems (Robin Bishop)

Pressure has been growing to increase TVOC's own stock of EMIT cards due particularly to the growing success of the Saturday Series. There is concern that a decision on future timing systems might drift still further.

Shortly before this meeting, Neville Baker distributed two discussion documents to club members:

- "The Timing Group report into electronic timing systems for orienteering", written by Robin Bishop
- "Proposal to Purchase SI", written by Alun Jones

This is a brief summary of the discussion held during the meeting.

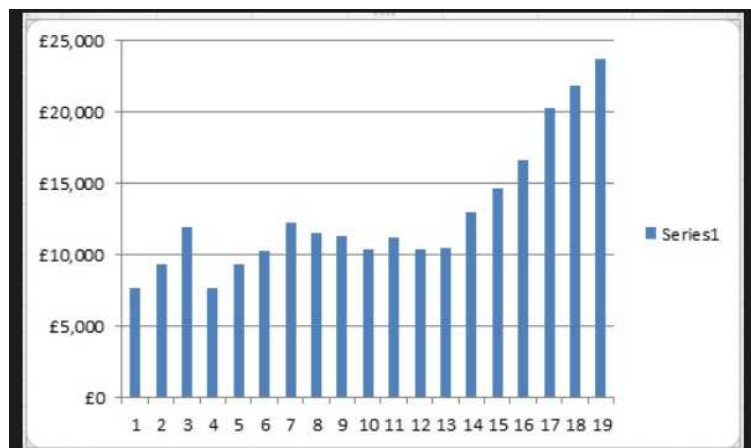

- Robin Bishop talked about the key points in the Timing Group report
- The Timing Group was made up of people with experience of both punching systems available today
- Robin explained the two necessary decisions laid out in the report for decision:
  1. To stay with the existing kit (EMIT), or move to an air/touch-free punching system
  2. If a move to an air/touch-free punching system is required, then which system should be used:
    - EMIT Touch-Free Punching using emiTags
    - SportIdent Active Card (SIAC)

During the following discussion, the following points were all raised:

1. The comprehensive input so far provided by club members responding to the report and proposal written by Robin and Alun before the meeting
2. The technical advantages and disadvantages of each system
3. The ease of use for Planners, Organisers and the Results teams (the kit itself, and computing requirements)
4. Robustness of kit
5. Ease of set-up and maintenance of the systems
6. Battery life
7. Stakes to support the equipment
8. Current use of each system by other clubs
9. The possibility of trialling a new system before investing in it
10. The impact on different levels of event (A, B, C, Saturday Series, Summer Series)
11. Input from other individuals who had used both systems
12. The need for specific expertise within the club
13. The importance of getting lots of practice using any new kit before the February 2020 events at Hambleton
14. The availability of documentation and training support for any new system
15. The cost of a move to SIAC as outline in Alun Jones' "Proposal to Purchase SI" initially costed to be approximately £14,000
16. The affordability of this to TVOC
17. Whether the club needs to make a decision to change timing systems now
18. How to best make a decision about future timing equipment for the club

Prior to the meeting, the Treasurer provided the following information:

Bar chart shows money in the bank at the end of each FY for years 2001 to 2018 and currently

During the discussion, Alun described a “Questions and Comments” document he had created with a table of replies to various e-mail questions received after the Timing note went out.

The meeting **AGREED** that:

- A Special General Meeting would be called by the Chair for June 3<sup>rd</sup> to allow all club members to make a decision on future timing equipment. This is according to clause 11 in the TVOC Constitution
- Club members who could not be present at the meeting could communicate their input via a proxy vote to the Chair, Neville Baker, before the Special General Meeting

**THE MEETING THEN CONSIDERED THE FOLLOWING PROPOSAL:**

- That Alun Jones’ proposal that TVOC proceed to purchase SI equipment is to be put to a Special General Meeting for a decision, with the recommendation that it be accepted

This proposal was **CARRIED** by majority by the following votes:

- 6 for
- 2 against
- 2 abstentions

Neville Baker has subsequently sent out the following note to club members:

We had a very full discussion on timing systems at the TVOC Meeting yesterday evening.

In an indicative vote, a majority of those present were in favour of the club going ahead and purchasing SI kit (with the intention of operating it in Air mode). Nevertheless, the meeting was also firmly of the view that the wider club membership should be given the opportunity to present their views on this important subject.

I have therefore arranged for a Special General Meeting to be held at the Merry Bells Community Centre in Wheatley for 8pm on Monday 3<sup>rd</sup> June.

This email is a formal announcement of such a meeting, the purpose of which is to agree whether the club should move to SI/SIAir, or should continue with EMIT for the foreseeable future.

No other business will be discussed.

I very much hope that those of you with views on this subject will be able to attend that evening.

For those of you who cannot attend, please let me know whether you are in favour of

1. The club moving to SI/SIAir, or
2. The club continuing with EMIT for the foreseeable future.

I will arrange that these 'proxy' votes be taken into account at the meeting.

Before attending the meeting, or proxy voting, I ask that you review the Timing Systems Report and supporting note from Alun Jones that were circulated to all club members on the 19<sup>th</sup> May.

Some other clubs around the UK are also investigating changing from EMIT to SI/SIAir, and indeed two Scottish clubs made this transition a couple of years ago.

I also attach a note responding to some of the questions and comments which have been made by email in the last few days.

Obviously, if you have any further questions about this important subject please contact me as soon as possible, either by email or phone 07562 992 292.

Neville

**ACTIONS:**

- Neville to book the Merry Bells in Wheatley for the Special General Meeting
- Neville to email the club announcing the Special General Meeting on the 3<sup>rd</sup> June, attaching the Questions and Comments document referred to in his note
- Neville to log the feelings and votes of any member unable to attend the Special General Meeting

## 5. TVOC Membership Fees for 2020

In 2020 BOF fees are going up to £15 - to £23 (with our £8) fee. And that makes selling membership quite a hard sell, so we may want to think hard about our membership fee for 2020.

Broadly, the membership fee equates to the costs to printing the annual newsletter (about £1,000). The Newsletter is no longer being produced, and it seems unlikely that it will be produced in printed format in the future.

Previously, Alun Jones proposed that TVOC Membership Fee be reduced to £0 (i.e. Free of Charge) in 2020.

After discussion it was **AGREED** that the senior membership fee to join TVOC in 2020 will be £1. Juniors to continue being FOC.

The meeting also **AGREED** that we would reduce the club membership to £1 for joiners for the remainder of this year provided that BOF can do it. New membership for the balance of this year would then be £12 for seniors (with British Orienteering membership). **ACTION:** John Dalton to find out from British Orienteering whether this is possible.

**UPDATE AFTER MEETING:** British Orienteering have confirmed that they are able to change a Club's membership fee mid-year. John will confirm via Chair and Treasurer that he is to go ahead and request this fee change for new members joining now ASAP.

## 6. Past Events

From Previous Meeting  
Emergency Radios

- Mark Thompson worries that the radios in the Emergency Response kit are toys and next to useless, having tested them around the home and vicinity. Mark recommended we buy some proper radios for use in an emergency.

Jon Wheatcroft has explored the best radios available to the public (i.e. non-commercially). These cost about £70 a pair. Never-the-less they are not still professional quality radios and work best with line-of sight. They are claimed to have up to a 10k range without buildings or trees in the way. They are probably better than our current radios (which were purchased purely to assist with car parking, and NOT for emergency purposes)

**DISCUSSION CARRIED OVER TO NEXT MEETING PENDING MORE INPUT**

- Waddesdon, February Half Term (16-24 February), National Trust (Yvonne Hodson)  
**ACTION:** Neville Baker offered to send specific thanks to Andrew and Liz for their outstanding efforts. **ACTION CARRIED OVER**

## 7. Future Events: see <http://tinyurl.com/TVOC-plans>

**NOTE:** The meeting should now be reviewing newly appointed Planners and Controllers for Level C events. (Level B events are reviewed by SCOA).

**SEE APPENDIX FOR FULL DETAILS OF ALL EVENTS CURRENTLY PLANNED**

## 8. Saturday Series (Nat Skidmore)

Still struggling to find Planner/Organisers. Nat would welcome more support in coordinating landowner permissions etc. Mark Thompson's help in Controlling courses is invaluable. The new web site should help reduce the administrative overhead.

## 9. Summer Series 2019 (Chris Poole)

Series starts on the 28<sup>th</sup> May at Bradenham. 03JUL19 date still vacant for willing Planner/Organiser.

## 10. Oxford Street Series (Robin Bishop)

One more event for this series. Date to be confirmed. New series will start in September

## 11. Other Mapping Topics

Daniel was interested in mapping Westwood, near Little Chalfont. No update available.

## 12. Officers Reports

## 13. Situations Vacant

Role	Previous Holder
Team Leader, Registration and Results	Alun Jones

### Team Leader, Registration and Results:

Still no progress on finding someone to take this post on. For now, the EMIT/Registration team are agreeing amongst themselves who is taking a lead for the team for each event.

### Magazine Editor:

On a temporary basis, Chris Poole has offered to take on a caretaker role of this sort, focusing on on-line information. He proposes to use email and the web site to produce a regular flow of information to the site in summarised, digest form.

**ACTION:** Both Situations Vacant to be reviewed after the JK.

## 14. Any Other Business

- a) Permanent Orienteering Courses (Nat Skidmore)  
All issues being handled by Ben Green. **ACTIONS COMPLETE**

- b) Waddesdon (Yvonne Hodson)

The meeting gave a provisional "yes" to supporting Waddesdon pending more details.

### ADDITIONAL INFORMATION SINCE MEETING:

Dates are 24th July to the end of August. We don't have to put something on continuously – we could select a day/days/week/period. Up to us.
